Best Basic Slime Recipe

Easy Slime Recipe for Kids

This is an awesome, versatile recipe for any of your favorite slimy themes. It also handles mix-ins very well!

For extra stretchy slime, we suggest not putting in too much saline until you have spent some time kneading your slime.

Saline Solution Slime Recipe

Mix 1/2 cup of white or clear washable school glue (Elmers is our favorite) with 1/2 cup of water.

Add a 1/4-1/2 tsp of baking soda

Add food coloring and mix-ins like confetti or foam beads

Stir in 1 tbsp of saline solution until slime forms. Saline solution must contain boric acid and sodium borate to work correctly.

Knead slime to desired consistency. Squirt a few drops of saline onto hands to help reduce stickiness. Sticky slime is great for mix-ins like foam beads.

Slime Making Tips

For fluffy slime, omit water and replace it with 3 cups of foam shaving cream.

For butter slime, knead in 1-2 oz of soft clay after the slime is made.

For foam slime, add in 1 cup of beads before adding saline solution. Or mix beads into already made slime!

Mix-In Ideas: Add these to your slime kit!

- Glitter
- Sequins
- Confetti
- Colored Sand or Actual Beach Sand
- Acrylic Gems or Jewels
- Foam Beads
- Soft Clay (Butter Slime)
- Small Shells
- Fishbowl Beads
- Plastic Ocean Sea Creatures
