

**Solar
System**

Journal

The background is a vibrant space scene with various planets, some with rings, and stars. A decorative border with a scalloped edge and square corner markers surrounds the central text area.

PLANET

FUN

FACTS

Flashcards

MERCURY

- the fastest planet
- the closest planet to the sun
- the smallest planet - about as wide as the Atlantic Ocean

VENUS

- the brightest planet
- the Earth's twin
- named after the Roman Goddess of Beauty
- known as evening or morning star
- the hottest planet in the solar system

EARTH

- the fifth largest planet from the sun
- has one large natural satellite we call "Moon"
- the surface is made of 70% water
- the only planet that isn't named after a God or Goddess
- the only planet that has known life forms (by far)

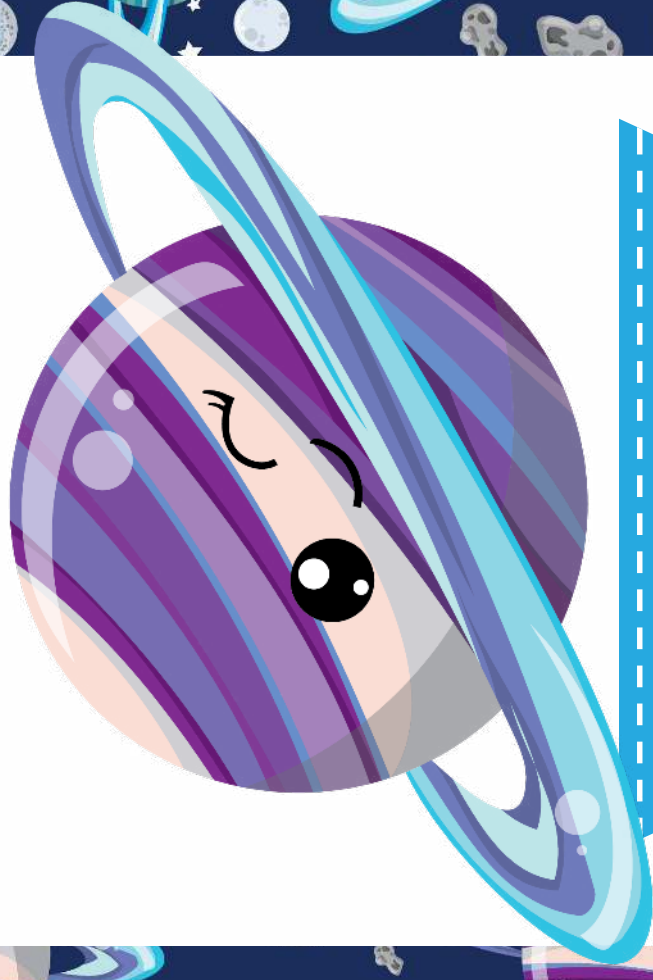

MARS

- the red planet
- the most likely candidate for a future human habitat
- has water in forms of ice
- has two moons called Phobos and Deimos

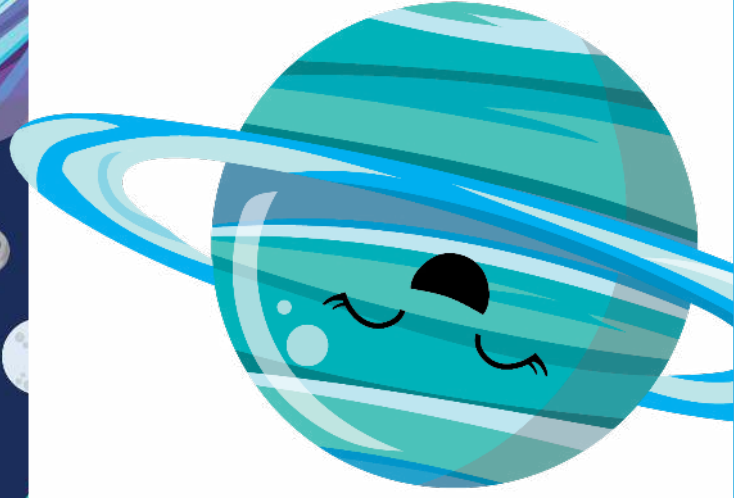

JUPITER

- the largest planet
- the 'Great Red Spot' is its most famous feature-its a storm that has been blowing for about 350 years
- has some of the largest moons in the solar system

SATURN

- is a gas giant just like Jupiter, Neptune and Uranus
- is the second largest planet
- has the most visible rings
- has the second largest moon called "Titan"

URANUS

- is a blue planet because of gases not water
- the 2nd farthest from the sun so it will take 84 yrs to complete its orbit
- it orbits on its side so its seasons are different from ours

NEPTUNE

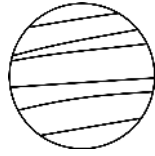

- is also a blue planet and has similar gases to Uranus
- its the farthest to the sun
- it takes 165 years to complete its orbit around the sun

The background is a vibrant space scene. It features a dark blue field filled with various celestial bodies: planets with colorful rings in shades of purple, blue, and green; smaller white and grey planets; and numerous white stars of different sizes. The entire scene is framed by a decorative border consisting of a dark blue outer line and a white inner line with a scalloped, wave-like pattern. In the four corners of the white inner border, there are small dark blue squares.
