

SCAVENGER HUNT

Look for the following pollinators and their associated items.
Check off the boxes as you find each item.

Find a Flowering Plant: Look for a plant with flowers.

Spot a Bee: Search for a bee buzzing around flowers.

Locate a Butterfly: Keep an eye out for a butterfly fluttering near flowers.

Discover a Hummingbird: Look for a hummingbird feeding on nectar.

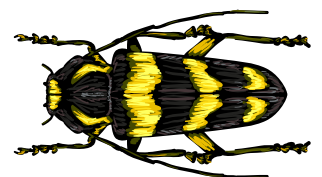

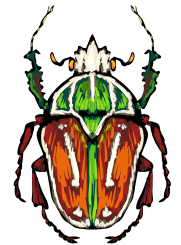

Identify a Beetle: Find a beetle crawling on a flower or leaf.

Observe a Moth: Spot a moth resting on a flower or flying nearby.

Search for a Hoverfly: Look for a hoverfly hovering around flowers.

Observe an Ant: Spot an ant exploring a flower or nearby area.

Find Evidence of Wind Pollination: Look for a plant with inconspicuous flowers that might be wind-pollinated.

SCAVENGER HUNT

Explore the designated area (e.g., schoolyard, local park) with your classmates or independently. Look for the following pollinators and their associated items. Write or draw your observations in the spaces provided.

Find a Flowering Plant: Look for a plant with flowers.
Draw or describe the flower you find.

Spot a Bee: Search for a bee buzzing around flowers.
Draw the bee or describe its color and size.

Locate a Butterfly: Keep an eye out for a butterfly fluttering near flowers.
Draw the butterfly or describe its wing pattern.

Discover a Hummingbird: Look for a hummingbird feeding on nectar.
Draw the hummingbird or describe its long bill.

Identify a Beetle: Find a beetle crawling on a flower or leaf.
Draw the beetle or describe its shape and color.

Observe a Moth: Spot a moth resting on a flower or flying nearby.
Draw the moth or describe its size and markings.

Search for a Hoverfly: Look for a hoverfly hovering around flowers.
Draw the hoverfly or describe its appearance.

Observe an Ant: Spot an ant exploring a flower or nearby area.
Draw the ant or describe its behavior.

Find Evidence of Wind Pollination: Look for a plant with inconspicuous flowers that might be wind-pollinated.
Draw the plant or describe its flowers.
