

# THE URINARY SYSTEM

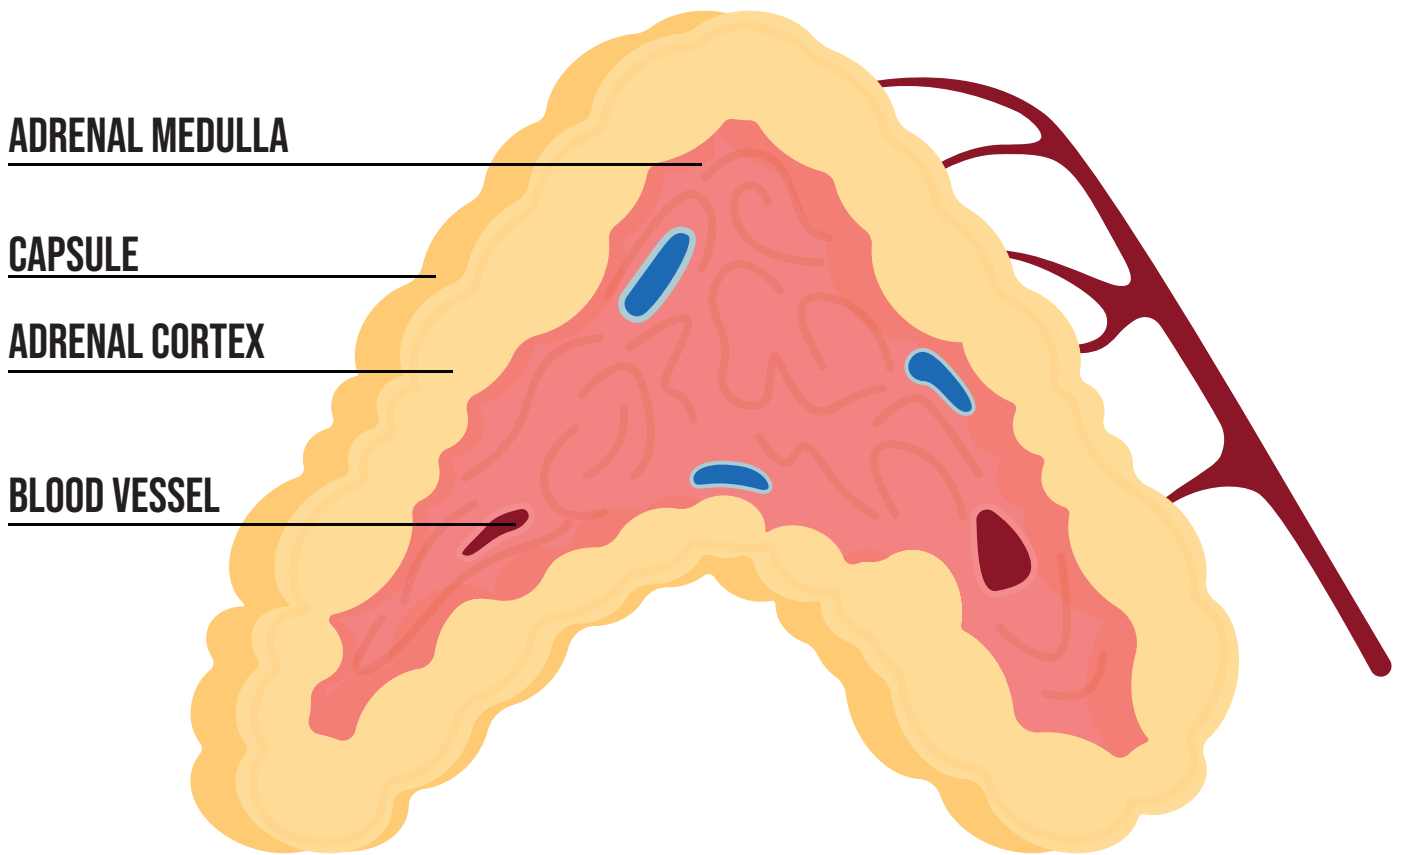

# KIDNEY ANATOMY

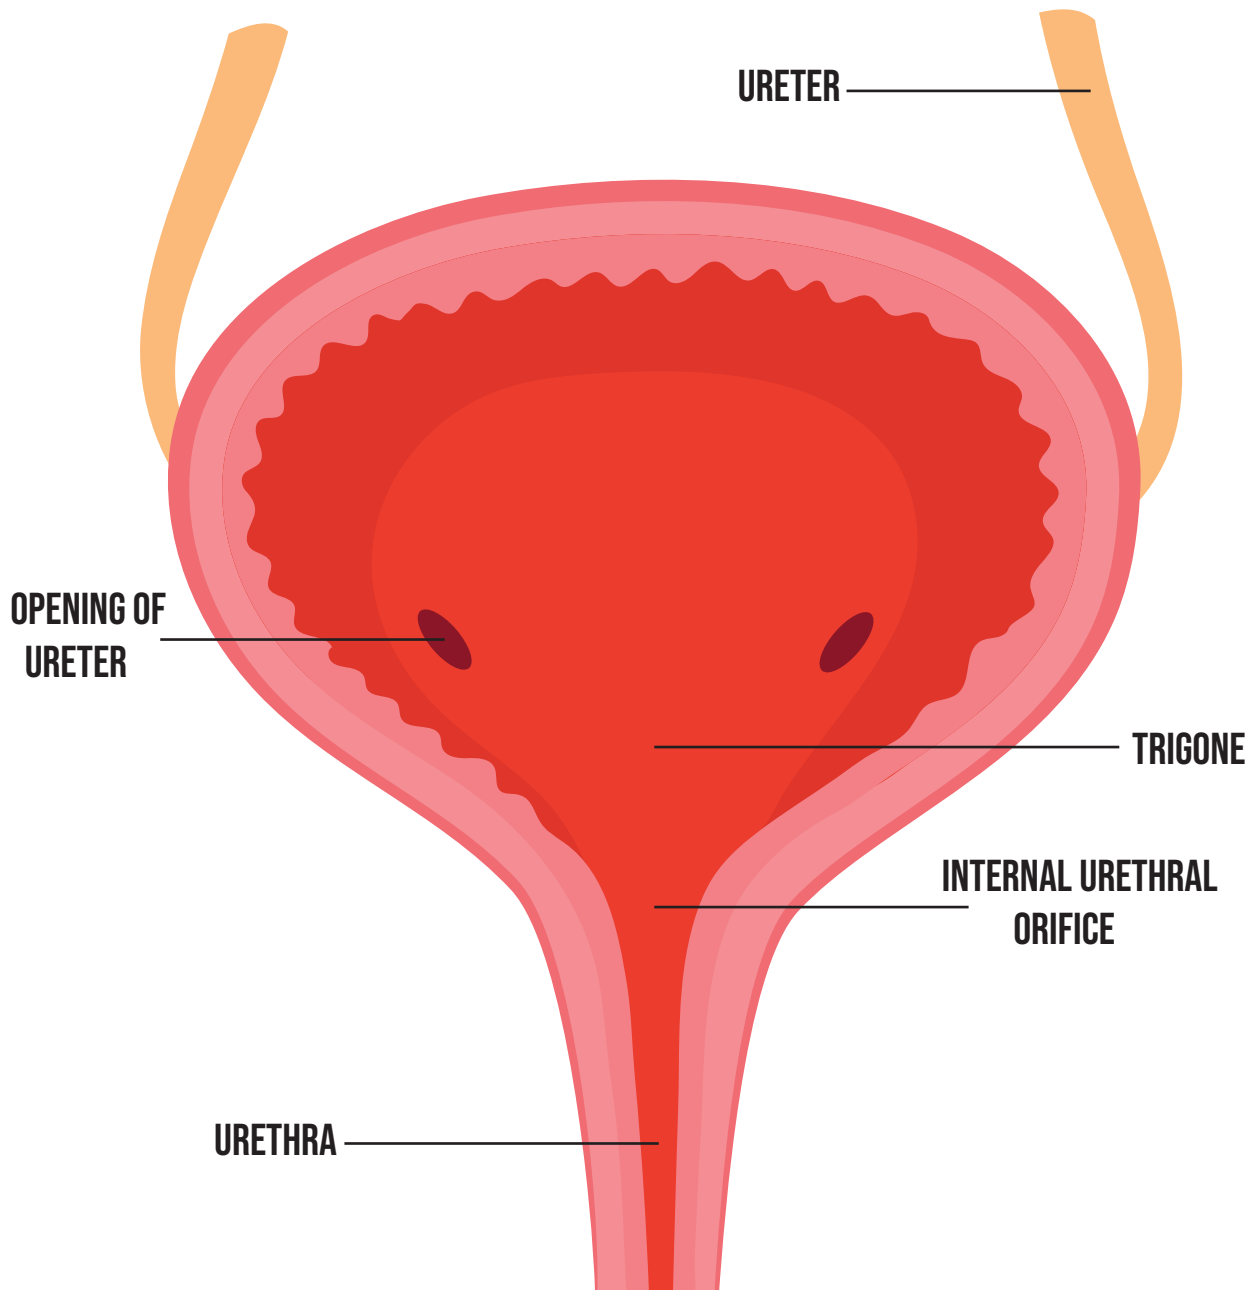

**KIDNEYS** - A pair of organs that filter waste, excess water, and toxins from the blood to form urine.

# ADRENAL GLAND ANATOMY

**ADRENAL GLAND** - They are not part of the urinary system, but they release aldosterone. Aldosterone controls blood pressure by balancing salt and water in the body.

# URINARY BLADDER ANATOMY

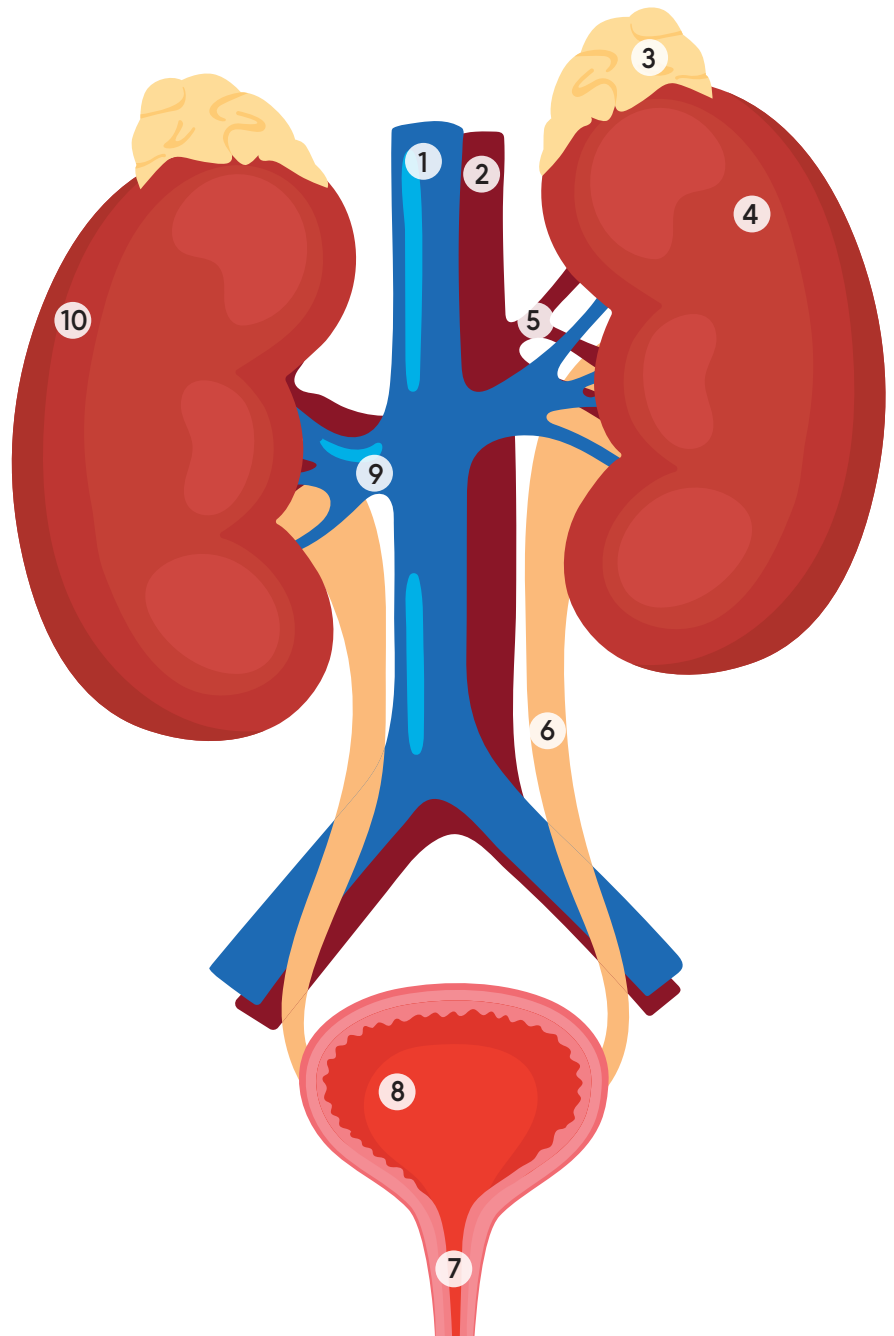

**BLADDER** - It is a muscular sac that stores urine until it is ready to be released from the body.
